FARMVILLE.

Conspicuous among the successful and progressive business men of Farmville stands Mr. G. M. Robeson, the guiding and controlling genius of the Farmville Manufacturing company. From a modest beginning he has built up the most remarkable business of its kind in all Virginia. He has been making a specialty of plow handles and those going out from his plant enjoy more than national reputation, while there is not a want known to the builders' trade that he is not ready to supply on moment's notice. Mr. Robeson is the best informed man on the subject of timber values in Virginia I ever talked to. He does not believe in the reckless destruction of trees, as no man of sense does, but he has impressed me often with the mistake made by some of our land owners who do not judiciously thin out the trees just as they do some crops. He has called my attention to more than one body of original growth where the cutting-out process could have been prudently and profitably employed. As busy as this active man of affairs is at his own manufacturing plant he still has time to give to the general improvement of his town. He is building convenient and comfortable residences in different sections of the growing city and desirable tenants are ready to rent them as soon as they are ready for occupancy. Nothing more contributes to the progress of a town than good homes at reasonable rent. These Mr. Robeson is offering, and in so doing not only is improving his own fortune but is making him self a public benefactor. If you have a log to sell Mr. Robeson has the cash for it.

If I was asked to name the most untiring, indefatigable, indomitable, irrepressible and altogether strenuous worker in the business circles of Farmville I would be quick to mention the name of Mr. C. E. Chappell, or, as he is commonly called, "Charley" Chappell. Others may attend the opera, the circus, the mass meeting; the church festival, go on the "excursion," or to the picnic, or the fish fry, or to the countryhouse, or to the postoffice, or to meet the trains, but "Charley" Chappell will be found on duty at his own place of business and most apt be taking in the dimes and dollars. And all this means the best equipped business of its kind in any town of like size in the South, one of the most attractive private residences in the town and some of the most valuable business houses on our Main street, which is fast becoming to be the best built-up street I know of. This phenomenal success has been the result of labor well directed rather than of luck, of sacrifice, of self-denial. He could easily have failed, but he has won by hard licks.

Mr. W. M. Duvall is another Farmville-made business man, whose intense energy and good judgment go hand in hand and have achieved marvelous results. For a number of years the firm of Duvall, Robertson & Co. was part and parcel of Farmville's business life and known far and near, respected, honored, trusted. Perhaps two men were never better suited to work together than were Thos. P. Robertson, a man of blessed memory, and W. M. Duvall. Since the death of Mr. Robertson the business has been conducted by Mr. Duvall & Son with unadmin ished vigor and with ever-increasing success. This town was born in Farmville, has been nurtured here and here has developed into full and strong manhood.

Perhaps the most brilliant success which has been won in this workfield is that achieved by Mr. H. E. Barrow. He came here less than three decades ago a poor boy, a stranger in a strange town, but he came to "stay," has stayed and is today one of the most important factors in the industrial life of the town. He has been actively associated with more enterprises than any other one man, and though he has had many irons in the fire none of them have burned. While intensely engaged with the commission business and other affairs in town of moment, he finds time to look after a number of farms, and upon each of them he is "making two blades of grass grow where only one grew before." And while so absorbed with affairs temporal he never neglects things spiritual. This is another lying tribute to Farmville influences.

When Mr. A. G. Clapham left the First National Bank as cashier I wondered who would be found to fill his place. The right man was soon located, and under the skilled and cultured management of Mr. J. W. Long this splendid financial institution has been gaining in strength and popularity until to-day it ranks with the foremost of its competitors.

Farmville air seems to thrive with business dash and daring, which are held in check by wise conservatism. It does seem that the new Short Air Line railway between the north and south will pass through Farmville, and it remains to be seen what Farmville will do with it. Our habit has been to give a warm welcome to newcomers, and we are not going to go back on our good record. The passing of the road will be of no particular moment unless we can induce it to stop long enough to learn something of value.

The ladies of the Presbyterian Church realized some $140 from their "Birthday" entertainment, and they are under obligation not to reveal the age-secret of anyone who honored them with their presence.

The frost blighted our buds and blossoms, but they will brighten again.

Our new livery is doing a flour ishing business.

The time for paying the capitation tax as a pre-requisite to voting has expired, and strange to say a few men who should take an interest in the government have failed to attend to the matter, but most of the voters in this district have paid.

Do not forget to attend the reunion of Confederate veterans here on the second Monday and help out the monument fund.

Captain Camm Patteson has a well written article in Sunday's Times-Dispatch in which he says effort will be made to mark the spot where Gen. R. E. Lee made his last camp after the surrender with an appropriate inscription. The place is on the road from this place to White Hall, and near the place then owned by Mr. William Shepard. General Lee passed through this place, and a lady here went out and asked, and was granted, the privilege of shaking hands with the man who the day before had surrendered with the shattered remnant of the Confederate forces after four years of fighting, privation and suffering. This was 41 years ago (how time flies), and although the Union army has been engaged in the war with Spain and in war with the Filipinos, we speak of the Civil War as the war, for in this struggle Virginia and Virginians had staked their all.

If the effort to carry through the scheme to build a bridge across James River at Scottsville should succeed and the property is taxed as it is to pay for the Wingina bridge, the taxes at the same rate will be $1.45 on the $100, and capitalists will move their money to another State to avoid paying this enormous tax. I do not wish to clog the wheels of progress, but I do not think this Scottsville bridge will be of much benefit to any citizen but to one in the State River district, and if it must be built why not make it a toll bridge and let those who cross it pay for it.

The Ladies' Aid Society met here on the 5th and were tendered an ice cream festival by Mr. S. J. Fisher. How a lady enjoys talking and eating ice cream, and you know they had a fine time, which they surely deserved. These ladies are not all talk, for they put the men to shame when it comes to making money for their church.

Andersonville.

A message from a Buckingham boy away off in California says give the news from Andersonville through the A. and B. TIMES. Well, we have thought of that boy often since the San Francisco disaster and wondered if he was not thinking of that good old tune, "Oh, carry me back to old Virginia." Tell you, boys, Sam Donovan was about right when he said, during the war, that Virginia was the grandest State in the Union, Buckingham the best county in the State and Murphy's Ridge the best part of the county. Stick to the old county, boys, and make it a grand one.

Just now, I suppose, Andersonville has more sick people for its size than any city in the State. About one-fourth of its citizens are on the sick list. Drs. Nowlin and Morris both have patients. I'll not tell the number of sick ones for them you'll find out the size of our city.

Corn planting is not yet over. Same old cry, scarcity of labor. The labor problem is hard to solve.

The lawyers have been folks, ain't they? About nine-tenths of the Legislature are lawyers, and now there is talk of the Governor calling an extra session of that body. When we farmers employ a blacken ith, a doctor or dither to do work we get experts, and if they fail to make a good job we make them do it over without pay. Wouldn't the same rule work in regard to law makers? If I don't it ought to if they demand pay for work half done. They certainly ought to get out and let some one do it that knows how.

Mrs. Gentry, from Hinton, W. Va., is visiting friends at Andersonville for the summer.

Miss Mae Anderson is expected home this week.

Miss Bertha Anderson has just returned from a pleasant visit to her sister, Mrs. Wm. E. Bullard, of Lunenburg.

Eddie McCraw is home from Mississippi to see Em and Lee boy. By the way, that boy bids fair to make as good looking a man as his grandfather.

Miss Bessie McCraw made a flying trip home from the Normal last week.

The Chapman meeting is on in Danville and the general conference in Birmingham. Don't let us Methodist folks forget either.

The Tabernacle meeting is the 16th of July. Dr. Morrison, one of the greatest evangelists of the day, will be here.

I will say to that California boy, good night, but, my boy, come home, come home.

I will add a postscript and say to Glenfall, let's meet West Buckingham and see about the fried chicken we'll get. Tell us about the protracted meeting at Tabor or we will invite ourself to your home. I think the Baptist women make Methodists splendid cooks and housekeepers. I never saw it fail.

Enonville.

On Sunday morning, about 8 o'clock, little Frank Morris Ripley, infant and only child of Mr. and Mrs. J. A. Ripley, died very suddenly. He was 10 months old. He had been suffering from a severe cold for some time, but Dr. Morris, who arrived soon after his death, said the immediate cause was heart disease. Little Frank was a bright and attractive little fellow and had won all our hearts. Burial Tuesday at Wingina.

Education of the Negro.

The recent paper of so distinguished an author as Mr. Charles Francis Adams, of Massachusetts, frankly acknowledging that the negro is incapable as a race of being educated may be said to mark a distinct epoch in our history. Rudyard Kipling had written practically the same thing more than fifteen years ago, as had Captain Camm Patteson, but he did not go any farther than Mr. Adams when he stated that the enfranchisement of this race by the Fifteenth Amendment to the Federal Constitution was one of the greatest blows to civization and progress which had ever occurred in the annals of human history. Mr. Kipling says that the negro is more looked down upon and is thought less of by the Asiatics than by the Europeans and that the race feeling is far more intense and has always been so from the dawn of time, and he predicted what has turned out to be true, that the attempt to educate him in the United States of America would be a miserable farce and a failure. It is said that Senator Camm Patteson is highly pleased to find that he has two such allies as Charles Francis Adams and Rudyard Kipling. We may expect to hear another pamphlet on the strength of it. The Richest Man in the World.

The richest man in the world cannot have his kidneys replaced or live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger, the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebanon, Ky., writes: I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney disease, which certainly would have cost me my life."

The American hen, pluming herself on the eulogy recently delivered upon her usefulness by a Congressman, has now entered the lists as a trust buster. Fourteen million two hundred thousand eggs were recently shipped into Chicago in one day, and the beef trust is said to be taking notice.

Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake, of Wood, Ind., "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bullet. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes.

Japan's earthquake experts, now enroute to San Francisco, should be able to give useful advice. In Japan an earthquake comes along so frequently that the inhabitants are housesoe without one.

We hope that Voliva will not rub it in on Dowie by offering him a job as night watchman of the Temple or keeper of the dust rags.

Our neighborhood was saddened on April 14 by the death of Mrs. W. B. Beal, who died at her home near Tower Hill. She was about 23 years of age. Her disease was rapid consumption. She was only confined to the house two months previous to her death. She was the eldest daughter of Mr. Samuel Megginson, who lives near Megginson's mill, and is survived by her father, mother, three brothers and three sisters, a devoted husband and one little child. Her remains were interred at the old Megginson burial ground. Rev. Mr. Alison conducted the service. There was a large crowd present to pay the last tribute of respect to the dead.

Mr. W. A. Dixon and family, who live near Pamplin City, were the guests of his mother, Mrs. Mary A. Dixon, last Saturday and Sunday.

I would like to know, Mr. Editor, why we folks that live on the R. F. D. starting from Bent Creek can't get the A and B TIMES until the Monday after it is printed. Since the store route mail from Bent Creek was been di continued you send the TIMES by Vera, and it takes it just three days to get to Bent Creek, and there it stays from 1 p. m. until 7 p. m. next day. Now, why not send by Lynchburg, as the N. & W. and the C. & O. trains connect there and the papers could be brought to the boxes next day.
